why cyprus

Cyprus is quite unlike anywhere else. An island in the Eastern Mediterranean, with a unique blend of Greek culture, more than ten thousand years of history and multinational tradition, within a picturesque landscape of mountains and sea. The Cyprus School of English programmes are designed with the academic rigour of Xenion Education in mind and based on the richness of experiences the island has to offer.

Discover, with The Cyprus School of English, an island rich in history and culture, and full of wonderful experiences just waiting to be enjoyed!

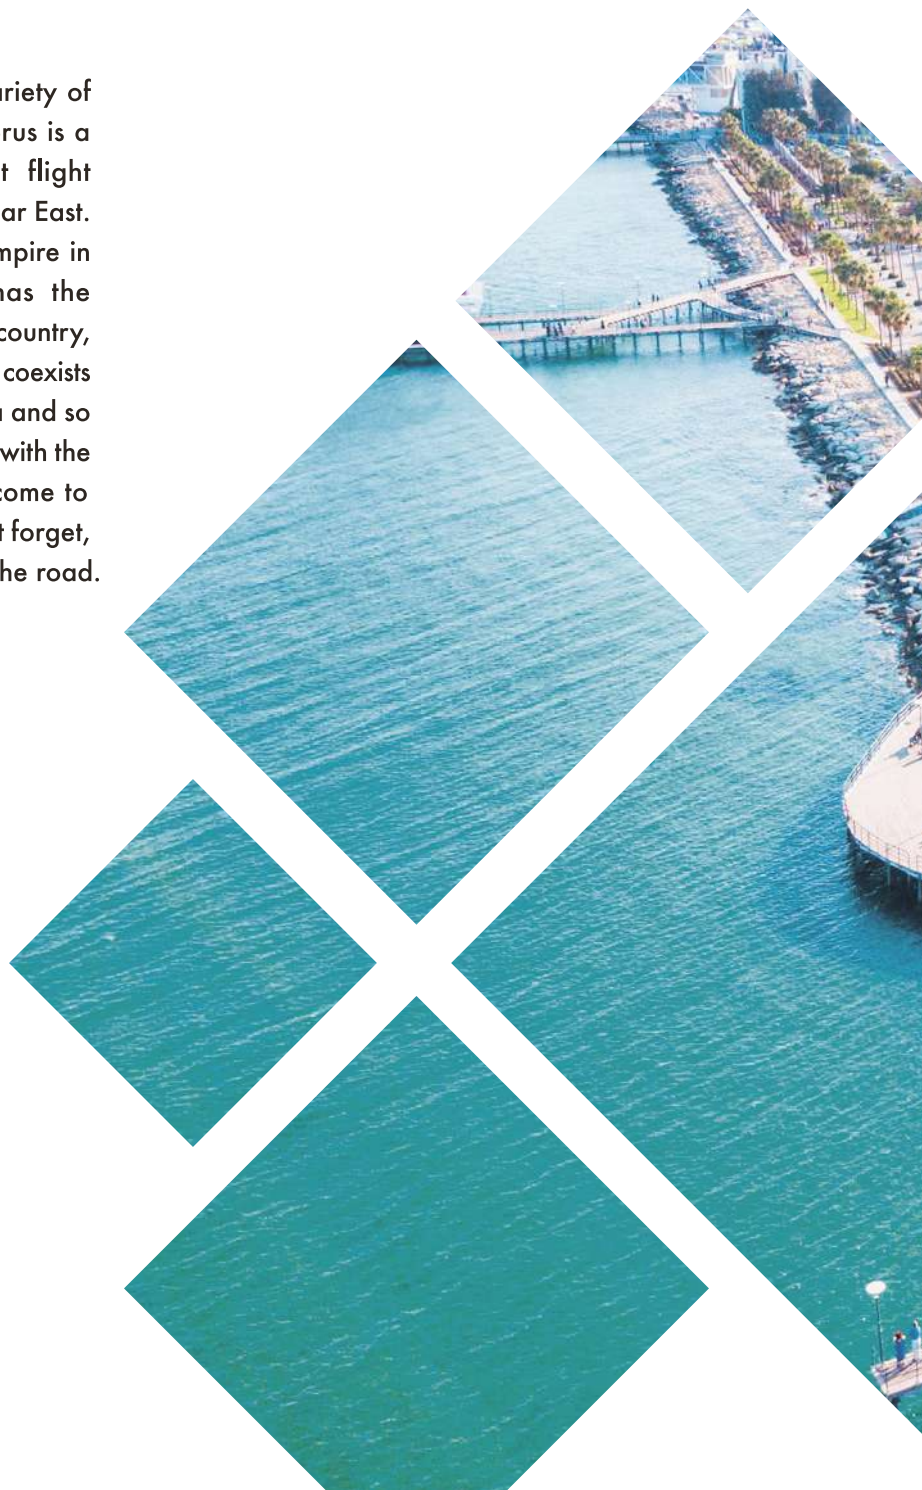

introducing cyprus

Here you can wonder at Greek temples, where the cult of Aphrodite, the ancient Greek Goddess of beauty and love, flourished, or discover the forest-hidden, painted Byzantine churches with their colourful frescoes on walls and apses, ten of which have been placed on the UNESCO World Heritage list. You can taste Commandaria, one of the oldest wines in the world, and savour fresh Mediterranean flavours at numerous restaurants featuring both local and international cuisine. You can always leave all this behind, though, and dance the night away to the latest sounds, or join in a more traditional Greek Sirtaki dance.

Apart from having excellent weather and variety of attractions and activities to experience, Cyprus is a very safe destination and has excellent flight connections to Europe, the Middle East and Far East. Cyprus' history, as part of the vast British Empire in the past, means anyone coming here has the opportunity to study and practise English in a country, where English is a widely spoken language and coexists with Greek on road signs, in shops, the media and so on. Besides, you can always practise together with the thousands of native English speakers, who come to visit or have made their home here. And don't forget, like the British, we drive on left-hand side of the road.

Such beautiful and diverse scenery and the traditional Cypriot hospitality at any time of the year, are perfect reasons for you to explore and experience this magical country. One thing is for certain, you will never be bored here!

Cyprus is the third largest island in the Mediterranean Sea, situated in at the south-eastern most corner of Europe, where East meets West. Cyprus' strategic position at the crossroads between Europe, Africa and Asia, has resulted in a fascinating history and one of the oldest civilisations in the world, dating back 10,000 years. The island is like a large open-air museum, where you can see evidence of its diverse past, creating a fascinating mosaic of different civilisations and periods.

> cyprus fast facts

Cyprus, has the warmest climate in Europe and with an array of beaches to choose from, you are bound to find one that suits your taste. There are fine white sandy beaches with shallow turquoise waters or deep-water bays with rocky outcrops perfect for snorkelling or diving. Cyprus is one of the few places of the Mediterranean, where sea turtles come ashore to breed on the island's beaches and they are strictly protected, as is the elusive mouflon, a rare wild mountain sheep found roaming the pine scented mountains of Troodos.

> what we do

We specify and deliver relevant, interesting lessons to all levels of ability, seeking to empower students by not only extending their knowledge of the English language but also increasing their confidence in using it. All interactions with teachers and other staff at the school are in English. English is also the language used at students' accommodation and on all excursions; so, students are immersed in the language from the moment they arrive.

> teaching

All our teachers are experienced, fully qualified, graduate teachers. They are specialists in teaching English and are native English speakers. They use the latest methodologies to deliver top-quality lessons and monitor each student's progress. Each student receives, upon completing their course of lessons, a certificate confirming the level of English attained within the Common European Framework for Languages. Teachers are supported by a full secretarial and administrative staff and the whole is overseen by senior members of Xenion Management Team, who work closely with highly skilled and experienced academic consultants from the English department of Xenion High School. We believe that our teachers are our greatest asset and are the main reason for the success which our students manage to achieve by the end of their course. Teachers at The Cyprus School of English are passionate about teaching and helping students develop their English language skills. We use a variety of effective teaching techniques to help students learn in the most efficient way possible.

Our Academic Counsellors are very aware that the exclusive use of a particular teaching method does not suit all English teaching situations and that no single method can deal with everything that concerns the content of the target language. This is why our teachers are committed to practicing eclectic teaching methods that are a combination of various methodologies. They combine the new with the old so as to adapt to a variety of teaching structures that students from different cultures are used to.

> school premises

The Cyprus School of English utilises the premises of Xenion High School, which is a spacious, modern purpose-built campus in the heart of Paralimni. All the amenities one would expect are within easy reach of the school and award-winning beaches are only 10-15 minutes' drive away. All classrooms are fully air-conditioned and equipped with state-of-the-art audio-visual and ICT technology. There is a full-sized theatre / cinema, which is used for lectures, meetings and film screenings. Outside there are sport facilities, including a volleyball court and an Astro turf five-a-side pitch. The cafeteria serves snacks, drinks and fresh, home-cooked lunches every day at very reasonable prices and is happy to cater for special dietary needs. The buildings are surrounded by landscaped grounds, with plenty of shade trees and benches and tables where students can relax during their breaks.
